

Annex 2

Before felting, the wool was processed industrially. Listed under is an overview of the five manipulation processes the wool has been through, and the names the wool samples have been given:

- Samples ending with 0 - process where almost all guard hairs have been removed
- Samples ending with 1 – opening of the wool by the picker
- Samples ending with 2 – opening of the wool by the picker and then separated
- Samples ending with 3 – opening of the wool by the picker, then separated, and carded
- Samples ending with 4 – opening of the wool by the picker and then carded

Sample name	Process	Motive	Colour	Type of wool
1.0	Oslo mikrospinneri	Removing almost all the guard hairs in one operation	Grey	Spring shearing
2.0	Oslo mikrospinneri	Removing almost all the guard hairs in one operation	Black	Spring shearing
3.0	Oslo mikrospinneri	Removing almost all the guard hairs in one operation	White	Spring shearing
4.0	Oslo mikrospinneri	Removing almost all the guard hairs in one operation	Brown	Spring shearing
8.1	Selbu Spinneri	Picker, opening the wool but saving all guard hairs	White	Spring shearing
8.2	Selbu Spinneri	Picker and dehairer, opening and removing some of the guard hairs and softer down	White	Spring shearing
8.3	Selbu Spinneri	Picker, dehairer and carder, opening, removing, and combing the fibres parallel. Guard hairs are removed along the dehairing and carding step.	White	Spring shearing
8.4	Selbu Spinneri	Picking and carding, opening, combing and paralleling the wool	White	Spring shearing

9.2	Selbu Spinneri	Picker and dehaier, opening and removing some of the guard hairs and softer down	Grey	Spring shearing
9.3	Selbu Spinneri	Picker, dehaier and carder, opening, removing, and combing the fibres parallel. Guard hairs are removed along the dehairing and carding step.	Grey	Spring shearing
9.1.1	Selbu Spinneri	Picker, opening the wool but saving all guard hairs	Grey	Spring shearing
9.1.2	Selbu Spinneri	Picker and dehaier, opening and removing some of the guard hairs and softer down	Grey	Spring shearing
9.1.3	Selbu Spinneri	Picker, dehaier and carder, opening, removing, and combing the fibres parallel. Guard hairs are removed along the dehairing and carding step.	Grey	Spring shearing
9.1.4	Selbu Spinneri	Picker and carder operations. Opening, plus combing the fibres parallel. Some guard hairs are removed in in the carder.	Grey	Spring shearing
10.1	Selbu Spinneri	Picker, opening the wool but saving all guard hairs	Brown	Spring shearing
10.2	Selbu Spinneri	Picker and dehaier, opening and removing some of the guard hairs and softer down	Brown	Spring shearing
10.3	Selbu Spinneri	Picker, dehaier and carder, opening, removing, and combing the fibres parallel. Guard hairs are removed along the dehairing and carding step.	Brown	Spring shearing
10.4	Selbu Spinneri	Picker and carder operations. Opening, plus combing the fibres parallel. Some guard hairs are removed in in the carder.	Brown	Spring shearing

10.1.1	Selbu Spinneri	Picker, opening the wool but saving all guard hairs	Brown	Spring shearing
10.1.2	Selbu Spinneri	Picker and dehaier, opening and removing some of the guard hairs and softer down	Brown	Spring shearing
10.1.3	Selbu Spinneri	Picker, dehaier and carder, opening, removing, and combing the fibres parallel. Guard hairs are removed along the dehairing and carding step.	Brown	Spring shearing
10.1.4	Selbu Spinneri	Picker and carder operations. Opening, plus combing the fibres parallel. Some guard hairs are removed in in the carder.	Brown	Spring shearing
11.1	Selbu Spinneri	Picker, opening the wool but saving all guard hairs	Brown	Spring shearing
11.2	Selbu Spinneri	Picker and dehaier, opening and removing some of the guard hairs and softer down	Brown	Spring shearing
11.3	Selbu Spinneri	Picker, dehaier and carder, opening, removing, and combing the fibres parallel. Guard hairs are removed along the dehairing and carding step.	Brown	Spring shearing
11.4	Selbu Spinneri	Picker and carder operations. Opening, plus combing the fibres parallel. Some guard hairs are removed in in the carder.	Brown	Spring shearing
12.1	Selbu Spinneri	Picker, opening the wool but saving all guard hairs	Black	Spring shearing
12.2	Selbu Spinneri	Picker and dehaier, opening and removing some of the guard hairs and softer down	Black	Spring shearing
12.3	Selbu Spinneri	Picker, dehaier and carder, opening, removing, and combing the fibres parallel. Guard hairs are	Black	Spring shearing

		removed along the dehairing and carding step.		
12.4	Selbu Spinneri	Picker and carder operations. Opening, plus combing the fibres parallel. Some guard hairs are removed in in the carder.	Black	Spring shearing
12.1.1	Selbu Spinneri	Picker, opening the wool but saving all guard hairs	Black	Spring shearing
12.1.2	Selbu Spinneri	Picker and dehairer, opening and removing some of the guard hairs and softer down	Black	Spring shearing
12.1.3	Selbu Spinneri	Picker, dehairer and carder, opening, removing, and combing the fibres parallel. Guard hairs are removed along the dehairing and carding step.	Black	Spring shearing
12.1.4	Selbu Spinneri	Picker and carder operations. Opening, plus combing the fibres parallel. Some guard hairs are removed in in the carder.	Black	Spring shearing
