

User Interface

```
graph LR; A[The helper classes, enums, structs used across the application.] --> B[User Interface];
```

The diagram consists of two rectangular boxes. The box on the left is white with a black border and contains the text 'User Interface'. The box on the right is gray with a black border and contains the text 'The helper classes, enums, structs used across the application.'. A black arrow points from the right box to the left box, indicating a relationship or dependency from the helper classes to the user interface.

The helper classes,  
enums, structs used  
across the application.
